

Only You Can Prevent Foodborne Illness

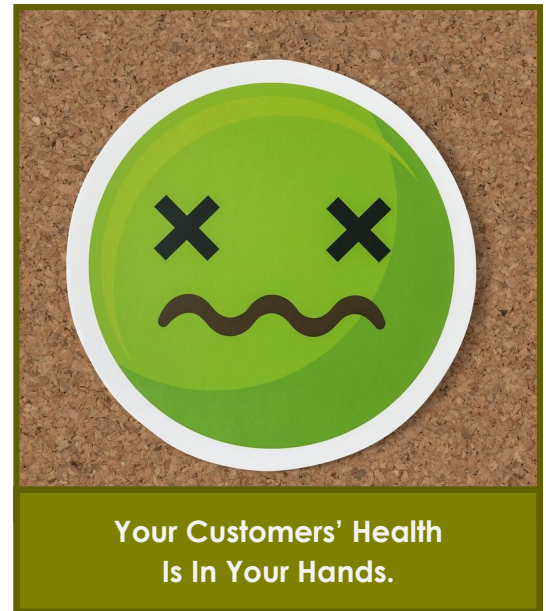

**Tell your manager or supervisor
(the person-in-charge) if you have...**

...any symptoms of foodborne illness:

- ◆ Vomiting
- ◆ Diarrhea
- ◆ Jaundice—yellow skin or eye color
- ◆ Sore throat with fever
- ◆ Infected wounds

...an infection (diagnosed by a doctor) of:

- ◆ Typhoid fever (*Salmonella Typhi*)
- ◆ Salmonella (nontyphoidal)
- ◆ Shigella
- ◆ E. coli
- ◆ Hepatitis A virus
- ◆ Norovirus

...an exposure to a foodborne illness in any of the following ways:

- ◆ I have been exposed to a confirmed outbreak of foodborne illness,
- ◆ Someone who lives in my house has a diagnosed foodborne illness, or
- ◆ Someone who lives in my house attended an event or works in a place which has a confirmed outbreak of foodborne illness.

**To help prevent foodborne
illness, please wash your
hands before beginning
work.**
